

SUBSTANCE OF CONCERN (SoC) & PFAS-FREE DECLARATION

1. Company and Product Identification

Manufacturer: Dankers Special Case Products B.V.

Address: Schijfstraat 13/A, 5061KA Oisterwijk, Nederland

Contact: info@dankers-cases.nl / +31 13 523 0393

Productrange: Custom flight cases, plastic transit cases, (aluminum) boxes, and technical (foam) inserts, displays and accessories.

2. Regulatory Status & Compliance Summary

Regulatory Framework	Status	Threshold / Details
REACH (EC 1907/2006)	Compliant	Contains no SVHC above the 0.1% w/w legal limit
RoHS (2011/65/EU & 2015/863)	Compliant	Free from heavy metals and brominated flame retardants (PBB/PBDE).
EUDR (EU 2023/1115) / Timber	Compliant	Wood components originate from sustainable, deforestation-free sources.
POP-verordening (EU 2019/1021)	Compliant	Free from Persistent Organic Pollutants.
TSCA (USA)	Compliant	Free from the 5 restricted PBT substances.

3. Material-Specific Declarations

Wood Components & Flightcases: The plywood (e.g., birch multiplex) used for custom flightcases and crates complies with TSCA Title VI and European "formaldehydewetgeving" (Klasse E1) restrictions. Adhesives used for lamination do not contain restricted Substances of Very High Concern (SVHC). If applicable, solid timber components comply with ISPM 15 fytosanitaire eisen for international transport.

Plastic Cases (PP, HDPE, ABS): Shells sourced from partners (including Peli, W.AG, and Tanos) contain no phthalate plasticizers (e.g., DEHP, BBP, DBP) above the 0.1% threshold.

Foam Inserts (PE / PU): Custom-milled and routed foam interiors are manufactured without CFCs, restricted blowing agents, or halogenated flame retardants.

Aluminum Cases & Hardware: Aluminum alloys used for transport boxes (e.g., Zarges, Alutec) comply with RoHS guidelines; lead content remains strictly below the 0.4% regulatory exemption limit for alloys.

4. Special Addendum: PFAS-Free Declaration

In alignment with the European REACH restriction proposals and global environmental standards, Dankers Special Case Products B.V. declares the following:

No Intentional Addition: Per- and polyfluoroalkyl substances (PFAS), including PFOA, PFOS, and PFHxS, are not intentionally added, used, or incorporated as raw materials during the manufacturing of our cases, wooden panels, or foam inserts.

Surface Coatings: The High-Pressure Laminate (HPL) sheets and PVC/ABS protective layers attached to our wood panels are free from PFAS coatings. Phenolic resins used for textured anti-slip flooring (wiremesh plywood) do not contain fluoropolymers.

Hardware & Components: Coatings, latches, and hinges are free from fluoropolymers (such as PTFE) for water, oil, or stain repellency.

Compliance Thresholds: All delivered products remain below the applicable regulatory detection and restriction limits for PFAS.

5. SCIP Database Notification (REACH Duty)

Status: Not Applicable (N/A)

Reason: Since no Substances of Very High Concern (SVHC) from the REACH Candidate List are present in our products above the 0.1% w/w threshold, submission to the European SCIP database is legally not required.

6. Authorization and Sign-Off

Dankers Special Case Products B.V. certifies that the products delivered comply with the chemical and environmental regulations stated above. This declaration is based on routine supply chain audits and material data safety sheets provided by our suppliers.
